Our Team

Meet the innovators

SGC Tech AI is led by practitioners — CMA,CPA, multi-jurisdiction finance leaders, and Odoo implementers who have personally run finance, ERP, and operations inside the exact mid-market companies we now serve. We do not learn on client time. Meet the people accountable for your outcome.

Mission · Vision · Values

MISSION

Give UAE mid-market operators a single, integrated Odoo + AI operating system — delivered on a fixed price, fixed timeline — that replaces spreadsheets, WhatsApp threads, Tally, and disconnected tools.

VISION
24-MONTH

Become the reference Odoo + AI implementation partner for UAE real-estate brokerages, developers, and contractors navigating Dubai Law No. 7 of 2025, RERA/Ejari tightening, UAE Corporate Tax, and PDPL — with 30–50 retained mid-market clients across UAE/GCC.

VALUES

- **Provable over promised.**
  Every claim tied to an audited number, a named project, or a verifiable credential.
- **Operator empathy.**
  We have sat in the finance, sales, and ops chairs ourselves.
- **Compliance-first.**
  VAT, CT, ESR, UBO, goAML, PDPL, RERA, TDRA — built in, not bolted on.
- **Fixed price, fixed timeline.**
  No open-ended retainers dressed up as projects.

The Problem We Solve

Three patterns we see across UAE real-estate, construction, and trading mid-market.

Scattered Systems

Sales on WhatsApp and spreadsheets. Finance in Tally or QuickBooks. Properties in Excel. Compliance reports rebuilt manually each quarter.

Nobody can answer ***"how is the business performing right now"*** without three people checking three tools.

Single source of truth: missing

Manual Work at Scale

Lead qualification is human-only. Document data entry takes hours per deal. Customer queries wait until a person is free. Commission calculations re-done every cycle.

Each of these is a ***2026 problem with a 2014 solution.***

AI should be doing the heavy lifting

Compliance Exposure

UAE Corporate Tax, VAT, ESR, UBO, goAML, PDPL, RERA, Dubai Law 7/2025, TDRA telemarketing rules, CBUAE AI call rules. Every quarter another obligation. Manual processes don't scale to this — they ***break, quietly, until an audit finds them.***

Growing faster than your team

At a Glance

SGC Tech AI is a UAE Free Zone technology consultancy that designs, deploys, and operates Odoo ERP + AI systems for mid-market companies (20–200 staff) in real estate, construction, trading, and adjacent operating-heavy sectors.

Finance-led by discipline. End-to-end by scope: CRM, sales, marketing, accounting, HR, inventory, commissions, BI, and compliance — delivered on Odoo v17, v18, v19.

SOURCE OF RESULTS

All four metrics source from an independent UAE client ERP ROI audit (Mar 2026), conducted client-side. Client reference available under NDA; used in gated proposals only.

AED 1.15B

Sales volume processed on Odoo systems implemented by our team

580

Real-estate deals managed in a single brokerage rollout

104%

Audited Year-1 ROI (UAE real estate brokerage, NDA)

5.9 mo

Audited payback period (UAE real estate brokerage, NDA)

Cost of Inaction

Conservative annual estimate for a 25-agent brokerage. Adjust per discovery call.

HIDDEN COST & HOW IT LEAKS

Slow commission cycle: 4-7 day calculation cycle, agent disputes, 1.5 FTEs of finance time absorbed monthly

Lost or cold leads

WhatsApp leads not logged, no follow-up cadence, ~15% conversion left on the table

Manual reporting & compliance

Quarterly RERA/VAT/CT reporting rebuilt manually, audit stress, error risk and potential penalties

Decision latency & lost opportunities

No real-time visibility on performance, inventory or pipeline—slower decisions, missed revenue opportunities

How We Engage

A structured, AI-powered approach to deliver measurable results.

01 SCOPING CALL

Free 30-minute. We confirm fit and ICP match. No commitment required.

02 RESCUE AUDIT

Optional. 2 weeks. Paid diagnostic, written plan. 50% credited to implementation.

03 IMPLEMENTATION

Fixed price, fixed timeline, defined go-live date and acceptance criteria.

04 RETAINER

Monthly or quarterly. Quarterly ROI reporting modeled on audited client benchmarks.

GROWTH-TIER GO-LIVE SCHEDULE (4 WEEKS)

WK 1	Discovery — process workshops, data audit, module map, UAT plan
WK 2	Build — Odoo configure, AI layer wired, dashboards built
WK 3	Migrate — data migrated, AI trained, integrations live in staging
WK 4	Go-live — UAT sign-off, training, production cut-over, 14-day hypercare

GO-LIVE GUARANTEE

14 Days

If we miss go-live by more than 14 days for reasons within our control:

One month retainer — free.

Accountable. In writing.

WHAT WE NEED FROM YOU

Executive sponsor
One decision-maker available for UAT sign-off and go-live approval.

Operations lead
3–6 hours per week during the implementation sprint only.

Legacy data exports
Tally, QuickBooks, Excel, or prior ERP — we handle migration.

That is it.
We do everything else — build, configure, migrate, train, go-live.

Compliance and Regulatory Posture

We publish only what we actually implement No surprises in audit season

ACTIVE — BUILT INTO EVERY ENGAGEMENT

- PDPL — Federal Decree-Law No. 45 of 2021
- VAT 5% — UAE VAT 5%
- Corporate Tax 9%
- ESR
- UBO Register
- goAML — goAML
- RERA EJARI
- Dubai Law No. 7 of 2025
- TDRA CD 56 & 57 of 2024
- CBUAE Art. 16 AI Disclosure

UNDER PROCESSING — CERTIFICATION ROADMAP

- SOC 2 Type II — Q1 2027
- ISO 27001 — Q2 2027
- Odoo Official Partner — 2026
- HIPAA — Not Applicable (UAE: PDPL + DoH/MoHAP)

WHY WE PUBLISH OUR LIMITATIONS

Vendors who claim certifications before achieving them are selling a future state as a present fact. We tell you exactly what controls exist today and what is on the 2027 roadmap — so you make a compliance decision with complete information.

Vendors who claim everything are usually hiding something.
You make an informed decision.

2027 CERTIFICATION ROADMAP

Q1 2027	SOC 2 Type II audit initiated — controls already aligned
Q2 2027	ISO 27001 gap assessment & scoping
2026	Odoo Official Partner — enrolment active
Today	PDPL, UAE VAT/CT, ESR, UBO, goAML, RERA — all live in every engagement
